M. FIRMANSYAH IDRIS

FULL STACK & MOBILE DEVELOPER

PROFILE

Full Stack & Mobile Developer building web and mobile applications since 2017, with Flutter, React, Next.js, and Node.js, and about 5 years of experience with React. Experienced in UI implementation, API integration, debugging, and performance optimization across telecommunications, banking, trading, blockchain, and agricultural finance. Works remotely with product owners, designers, and international teams. Uses AI-assisted development (Codex, Claude) to design and ship applications across languages and frameworks, from architecture through review and release.

PROFESSIONAL EXPERIENCE

MUST Company

Mobile App Developer

Jan 2024 - Oct 2026 | Remote - South Korea

- Built and maintained mobile apps for blockchain transactions, investment, and peer-to-peer features at a fintech company.
- Integrated smart contracts, payment gateways, and investment APIs; optimized real-time transaction and financial-data performance.
- Worked with a team across South Korea, Indonesia, India, Turkey, and Pakistan, adjusting to different time zones for sync meetings.

Flutter · Gemini · Firebase

WeGeeks

Mobile App Developer

Jul 2024 - Sep 2025 | Remote - Jakarta, Indonesia

- Developed mobile banking features for package purchases, billing, and transfers on iOS and Android, for a banking client of an outsourcing company.
- Worked with product owners and banking teams; improved speed and stability with attention to security and compliance requirements.

Flutter

Agit

Full Stack Developer

Jan 2024 - Dec 2025 | Onsite - Makassar, Indonesia

- Built dashboards, monitoring systems, site alarms, and message handlers for a telecommunications client of an outsourcing company.

Express.js · React · Vue.js · PHP · MySQL · PostgreSQL

AgriG8

Mobile & Web Developer (Freelance)

Apr 2023 - Present | Remote - Singapore

- Built the farmer-facing and admin applications for an agricultural insurance and lending platform, including credit and loan application workflows.
- Collaborated with product, business, and design teams; optimized performance and usability for agricultural users.

PROFESSIONAL EXPERIENCE - CONTINUED

Wistkey

Senior Software Developer

Mar 2023 - Jul 2023 | Remote - Hong Kong

- Worked with a team across Indonesia, Malaysia, and Hong Kong on an insurance system (web and mobile), a hospital information system (full stack), and the web side of an AI-powered web generator.
- Contributed to architecture, code reviews, junior developer mentoring, and coding standards; troubleshot technical issues with clients and project managers.

React Native · Next.js · React · Laravel

WGS

Mobile App Developer

Feb 2022 - Aug 2023 | Remote - Jakarta, Indonesia

- Built the user-facing mobile app for trading transactions, for trading and investment clients of a software development company.
- Integrated real-time data feeds, trading APIs, and backend systems; optimized performance and reliability for high-volume trading.
- Collaborated with designers on financial interfaces and supported security requirements.

Flutter · Firebase

PT. Alumagubi Raya

Mobile App Developer

Feb 2020 - Sep 2023 | Remote - Jakarta, Indonesia

- Built mobile apps at an IT consultancy for clients in Indonesia and Singapore, across online shopping, pet services, beauty clinics, POS, and pest services.
- Implemented features with cross-functional teams, integrated third-party APIs and backend systems, and collaborated with UI/UX designers.

Flutter · Android (native) · Firebase

PT. Infomedia Nusantara

Full Stack Developer

Apr 2017 - Dec 2023 | Onsite - Makassar, Indonesia

- Handled dashboard applications for a telecommunications client.
- Developed frontend and mobile applications from UI/UX designs, integrated APIs, and worked in Scrum with Git-based workflows.

PHP · JavaScript · TypeScript · Express.js · React · MySQL · PostgreSQL · Docker

ENGINEERING PRACTICES

UI/UX implementation, debugging, performance optimization, code reviews, and cross-functional collaboration in remote teams.
